PROFESSIONAL SUMMARY

Full-Stack Developer with nearly 4 years of experience building enterprise applications, business systems, and modern web platforms. Specialized in Next.js, React, TypeScript, JavaScript, Node.js, and Express.js, with hands-on experience developing scalable solutions across education, healthcare, ERP, and e-commerce domains.

Experienced in frontend architecture, REST API integration, session-based authentication, responsive UI development, automated testing, and Microsoft Power Platform solutions. Passionate about building high-quality software that delivers measurable business value and excellent user experiences.

TECHNICAL SKILLS

Frontend

Next.js, React.js, TypeScript, JavaScript (ES6+), Redux, React Query, HTML5, CSS3, Sass, Tailwind CSS, Material UI, Bootstrap

Backend

Node.js, Express.js, REST APIs, Session-Based Authentication, API Integration

Databases

MongoDB, MySQL, SQLite, PostgreSQL Microsoft Dataverse

Microsoft Power Platform

Power Apps, Power Pages, Power Automate, Dataverse, Power BI

Testing & Automation

Cypress, Puppeteer, Jest, BDD, TDD

Tools & Practices

Git, GitHub, GitLab, Figma, Agile Scrum, SAFe Framework

PROFESSIONAL EXPERIENCE

Software Developer

Florida University Southeast (FUSE) – Remote

July 2024 – Present

Working on a Student Information Management System (SIMS) supporting admissions, enrollment, grading, attendance, reporting, and academic administration.

Key Responsibilities

- Develop and maintain Student Information Management System solutions.
- Build Power Pages portals, Power Apps, Power Automate workflows, and Dataverse solutions.
- Create Power BI reports and support enrollment, grading, attendance, and academic administration processes.

Technologies: Power Apps, Power Pages, Power Automate, Dataverse, Power BI, JavaScript, Liquid, FetchXML

Software Developer

Gotemeri Network Integrator Pvt. Ltd. Co.

January 2023 – December 2023

Worked on a Hospital Management System desktop application used for healthcare operations and administration.

Key Responsibilities

- Developed Hospital Management System modules including laboratory, pathology, prescription, referral, HR, and reporting features.
- Participated in testing, deployment, and maintenance activities.

Technologies: Java, Java Swing, MySQL

Frontend Developer

2F Capital PLC

March 2022 – November 2022

Worked on a multi-tenant e-commerce platform and Merchant Portal application.

Key Responsibilities

- Developed merchant portal and e-commerce applications using React and Material UI.
- Implemented CRUD operations, filtering, sorting, searching, and API integrations.
- Built Cypress end-to-end automation tests and BDD unit tests.

Technologies: React, JavaScript, Material UI, React Query, Axios, Cypress, Git, GitLab

Frontend Developer

iWork Technology PLC

July 2021 – January 2022

Worked on an ERP system supporting finance, warehouse, HR, and payroll operations.

Key Responsibilities

- Developed ERP interfaces and HR/payroll modules using React and Redux.
- Built automated tests using Cypress and Puppeteer.

Technologies: React, Redux, JavaScript, CSS, Sass, Cypress, Puppeteer

FEATURED PROJECTS

Task Management System

React • TypeScript • Node.js • Express.js • SQLite

- Developed a full-stack task management application with session-based authentication and protected routes.
- Implemented user and task CRUD operations, search functionality, and responsive user interfaces.
- Built RESTful APIs and integrated SQLite for persistent data storage.
- Applied secure session management and protected route handling.

Live: <https://nuhamin-task-management.netlify.app/>

PrintForge 3D Models Platform

Next.js • TypeScript • Tailwind CSS

- Developed a modern 3D model showcase platform using Next.js and TypeScript.
- Built reusable UI components and responsive layouts.
- Implemented scalable frontend architecture and optimized performance.

Live: <https://printforge-3d-models.netlify.app/>

E-Commerce Platform

Next.js • React • TypeScript

- Developed a modern e-commerce application with reusable components and responsive design.
- Built product browsing experiences and scalable frontend architecture.

Live: <https://nuhamin-ecommerce-shop.netlify.app/>

Tattoo Studio Website

Next.js • TypeScript • Tailwind CSS

- Designed and developed a responsive tattoo studio website featuring artist profiles, gallery pages, services, and appointment booking workflows.

- Implemented dynamic routing, reusable components, and mobile-first design principles.

Live: <https://tattoo-studio-site.netlify.app/>

Student Information Management System (SIMS)

Power Apps • Power Pages • Power Automate • Dataverse • Power BI

- Developed admissions, enrollment, attendance, grading, workflow automation, and reporting solutions.
- Built internal and external portals and automated academic processes.

Hospital Management System

Java • Java Swing • MySQL

- Developed laboratory, pathology, prescription, referral, HR management, and reporting modules.

Merchant Portal

React • Material UI • React Query • Axios

- Developed CRUD functionality, filtering, sorting, searching, pagination, and API integrations.

ERP System

React • Redux • Sass

- Developed HR and payroll interfaces and enterprise UI components.

CERTIFICATIONS

- Full Stack Developer Career Path — Scrimba
- Frontend Developer Career Path — Scrimba
- Microsoft Power Up Program — Credly
- JavaScript Algorithms and Data Structures — freeCodeCamp
- Responsive Web Design — freeCodeCamp

EDUCATION

Bachelor of Science in Electrical and Computer Engineering

Computer Engineering Stream

Arba Minch University

CGPA: 3.07 / 4.00

Graduated: January 2021
